

Replenishing Day Lotion

PRICE: \$38.00 USD/\$50.00 CAD

CONTENTS: 50 mL/1.7 fl. oz.

This ultra-soothing day lotion is formulated with ingredients known to replenish the skin's optimal hydration, help restore firmness, elasticity, and provide brightening benefits to impart an even, radiant skin tone.

TO USE: In the morning, apply to face, neck and décolletage as the final step in your daytime regimen. Use in the AM.

KEY INGREDIENTS:

Lactobacillus Ferment Lysate - This novel, green-technology probiotic helps to balance the immune system and inhibit the growth of some pathogens. It aids in recovery of the skin barrier, improves moisturization, helps reduce skin redness and regulates oil production.

Palmitoyl Tripeptide-38 - A highly effective skin firming peptide that works deep within the skin to help replenish and repair the skin's building blocks to smooth wrinkles from the inside/out.

Jobba Oil and Cocoa Butter - These powerful emollients help supplement the skin with natural lipids to moisturize and condition the skin.

Saccharide Isomerate - A 100% natural, plant derived skin-identical carbohydrate complex (Prebiotic) that provides a unique binding mechanism with the skin to ensure deep, instant hydration for 72 hours. Strengthens and protects the skin, offering improvement in skin comfort and appearance.

Antioxidant Blend - An effective blend of Tocotrienols (a highly effective form of Vitamin E), yeast extract and Superoxide Dimutase work together to provide superior antioxidant benefits to help protect the skin from oxidative damage.

Phenylethyl Resorcinol - A natural skin brightening compound occurring in pine. It is an antioxidant that is considered effective in reducing the appearance of age-related sunspots and hyperpigmentation, thus aiding in skin brightening.

Peony Root Extract - Obtained from the peony flower, this unique extract from the root of the plant optimizes cellular energy production and detoxification, making skin cells more resilient to damage.

Essential Oil Blend - Essential oils extracted from grapefruit, orange, tangerine and lemon peels are combined with lycium, apple and pomegranate essential oils to provide a fresh, natural scent.
